Weekly Newsletter Friday 10th March 2017

Head Lice

As you are aware from previous correspondence, health protection Wales guidance is that we do not send letters out to all parents if head lice are identified in your child's class. The guidance states that we should just inform the relevant parents. However, following the meeting last week parents feel that they would like to be made aware of any headlice in a particular class. We take on board your comments and will be sending a text to inform you that there are headlice in your child's class. This will enable you to check your child's head. We will continue to contact individual parents if we notice that your child has head lice. To minimise the outbreaks of headlice, we ask you to constantly check your child's hair and treat accordingly. If you would like any further information please contact Mrs Hand. To ensure you receive text messages from school please provide us with an up to date mobile number and email and download the gateway app. Details on this newsletter.
